## About the Workshops:

These Train-the-Trainer workshops are for **owners, managers, superintendents, supervisors, safety personnel and for those who are responsible for training** on equipment.

The Train-the-Trainer class does not "certify" or authorize the participants to operate equipment. Official training must be provided by the employer on their specific equipment and documented as such. Each attendee will receive a binder with training tools on how to conduct effective safety training, trainer guide materials, quizzes and certificate of completion.

These workshops are designed to be both basic and refresher knowledge, that are focused on fundamental effective safety training skills. Our workshops are participant-centered, interactive and encourage full participation.

## Cost per trainings:

\$65 Member
